VOL. XIII. NO. 39.

GREENVILLE, KY., THURSDAY, NOVEMBER 9, 1911.

50c. PER YEAR, IN ADVANCE

ACTIVE INDIAN RUNNER DUCK

Small Breed, Noted for its Egg Production and Termed the Leghorn of the Duck Family.

(By GEORGE E. HOWARD)
These ducks came originally from India; hence the name Indian. The term "Runner" comes from the fact that they literally run instead of waddling like most ducks.

The Indian Runner is a breed of small, utility duck noted for its egg production, and is often termed the Leghorn of the duck family. These ducks have been credited with records of more than 200 eggs each in flocks of ten, and 192 eggs each in flocks of one hundred. The "Runners" are active in their habits, are good foragers, and on an extensive run are able to

Pair of Indian Runner Ducks.

find a large proportion of their food. They are non-setters, are hardy and easily reared, but do not stand confinement well. Their flesh is of a deep yellow color and is of fine quality, but their small size is rather against them for market purposes, except for broilers.

The standard-bred Indian Runner has a long, flat, finely formed head of a light fawn or gray and white color, the former being preferred. The head should be adorned with cap and cheek markings of light fawn or gray, the cap being divided from the cheek markings by a narrow line of white about one-eighth of an inch wide. The bill is of unusual length, fairly broad and strong at the base. In the ducklings the bill is of a yellow color, spotted with green. When fully matured, the bill should be green in color with a black band.

The eyes are of a hazel color and set light in the head. The neck is unusually long and slender and white in color from head to the beginning of the breast markings. The back is long and narrow and of a light fawn or gray color. The breast is round and of a light fawn or gray color, evenly divided about halfway between the point of the breast bone and the legs. The body is long, narrow and carried erect, with no indication of keel, somewhat resembling that of a Pouter in shape, and is of a light fawn or gray color. The wings are of medium length and carried close to the body, the shoulders and top part of the wings being of the same color as the breast. The tail is composed of hard, stiff feathers, the six feathers of the drake being well curled. The color of the tail is light fawn or gray. The legs should be of medium length and set well apart; the toes straight and connected by web. The shanks and toes should be of a deep, bright yellow.

The standard weight of the drake is 4½ pounds and of the duck 4 pounds.

Do not forget the shady nooks. The fowls need them.

Houses must be kept sanitary and the fowls free from vermin.

It is the even, steady thrift of our stock that makes them pay a profit. The comb not only denotes egg laying, but the general condition of the hen.

Lice are working havoc, and too severe measures cannot be adopted to destroy them.

Already the fowls are assuming a rusty appearance. It is getting near their molting season.

It should be remembered that chicks do not need any feed for the first 12 to 36 hours after hatching.

It is preferable to keep a box of dry chaff constantly before the fowls, allowing them to eat all they wish.

To insure fertile eggs it is most essential that the breeding stock should be as well fed as timely mated.

The growing cockerels should now be separated from the pullets, and the former given an extra allowance of feed.

Three-fourths of the diseases could be traced to impure air, dampness, improper feed, close breeding and ill-chosen conditions.

A hen that goes around with her mouth open is not a comfortable hen; she is too warm. Give her a place to sit down and cool off.

Throw open the windows every night, but keep some wide-meshed cloth of some kind over them to keep out things that have no business in the house.

If farmers would use the same judgment in feeding their poultry that they use in feeding their dairy cows they would soon find the results quite satisfactory.

As much poultry feed as possible should be grown on the farm, but additional feeds may be bought as necessary, such as bran middlings, gluten meal or beef scraps.

NOTES FROM MEADOWBROOK FARM

By William Pitt

Give the hen wide range.

Potatoes should be started early.

Potatoes are a highly specialized crop.

Cows should be kept comfortable at all times.

Provide some succulent feed for ewes in winter.

Weeds rob the soil of food elements required by other plants.

Farm philosophers say this is going to be a very dry year.

The milch-cow needs a shelter from the summer storms and heat.

A pig that is fed grain all his life usually fails to pay expenses.

Potatoes require considerable nitrogen and a large amount of potash.

The pigs should have a clean, dry yard to exercise in during the day.

A cheap and effective way of de-horning calves is with potash caustic.

By judicious choice of varietal carrots may be enjoyed for a long season.

A daily record of work done will cut out many of the wastes of the farm.

The cat crop as a money maker on the farm is liable not to receive the attention it deserves.

The soil on cultivated fields on hilly or rolling land will wash less if plowed well and extra deep.

The gardener should try to grow the carrot quickly in order to secure tender, sweet, uniform specimens.

One of the chief reasons for butter becoming rancid at an early age is the fact that it is not washed thoroughly.

One ton of average fresh manure contains ten pounds of nitrogen; one ton of clover hay, 40 pounds of nitrogen.

Prune the trees in the early spring if possible, any month of the year if necessary, but be sure to prune the trees.

Clover and grass seed may be sown, and a good stand secured, on oat ground during the last of April and the first of May.

If the buttermilk is not washed out it will furnish abundant food for the bacteria, since they thrive on the casein in the milk.

With a quiet, steady team a half-grown boy, with a sulky plow, can do as good work as a man with the old-fashioned walking plow.

There is no professional study that requires closer work than does the development of the corn plant—a combination of brain toil and nature.

Pigs in the pasture require some sort of crude shelter to protect them from the sun and keep them from blistering and scalding on hot days.

Growing geese require large quantities of grass, which they will obtain if allowed their range, and which will cut down the feed bill at least one-half.

The picking of live geese for the live geese feathers, so called, is practiced less and less. It is a cruel practice, and ought to be entirely abolished.

The amount of feed that the pigs should get cannot be definitely advised. That must be determined by the feeder from the appetites of the assimilate food.

It has been found that the seeds of many weeds will retain their vitality for 15 to 25 years, possibly longer, and not all of the given year's seed grows in any one year.

It is surprising how few farmers have cement floors in their stables, and as a rule they do not realize the loss they sustain by having the earth floor or a leaky, filthy plank floor.

Poorly-hatched and poorly-brooded chicks furnished good grounds in the past for believing that artificially-hatched chicks were not as strong and vigorous as those hatched by the hen, and they were not. But matters have greatly changed of late years. There are now incubators and brooders that are reliable and safe.

Quite Literal.
She (indignantly)—Look at this piece of goods which has just come out of the wash! How could the man who sold it to me tell me the colors were fast?
He—I suppose because he knew how they could run.

What Are You Going To Do This Year

by way of making your business successful and your domestic life full of pleasure, if you are not supplied with telephone service of the Cumberland Telephone & Telegraph Company? My Doctor Said

"Try Cardui," writes Mrs. Z. V. Spell, of Hayne, N. C. "I was in a very low state of health, and was not able to be up and tend to my duties. I did try Cardui, and soon began to feel better. I got able to be up and help do my housework. I continued to take the medicine, and now I am able to do my housework and to care for my children, and I feel as though I could never praise Cardui enough for the benefits I have received."

TAKE CARDUI The Woman's Tonic

Cardui is successful, because it is made especially for women, and acts specifically on the womanly constitution. Cardui does one thing, and does it well. That explains the great success which it has had, during the past 50 years, in helping thousands of weak and ailing women back to health and happiness.

If you are a woman, feel tired, dull, and are nervous, cross and irritable, it's because you need a tonic. Why not try Cardui? Cardui builds, strengthens, restores, and acts in every way as a special, tonic remedy for women. Test it for yourself. Your druggist sells Cardui. Ask him.

THURSDAY, NOVEMBER 9, 1911.

Entered at the Greenville, Ky., postoffice as a second-class matter.

MANAGERS of three large hotels in Boston have refused to allow the "Gideons" to place copies of the Bible in the rooms of their hotel-rooms. Possibly they never have read the book and have suspicions that some of its injunctions might conflict with their printed rules and regulations for the guidance of guests.

By an arrangement of the sugar-producing countries of Europe exports from Russia were limited to 200,000 tons per year. It was intended to guard the markets against the bounty of nature and maintain prices. As it happens, in this year of general shortage elsewhere Russia has one million tons in excess of home demand which she has agreed not to export. If there were free and unrestricted trade the Russian surplus would be available to keep prices normal. The tariff makes the world over think they can get the better as governed by supply and demand, and invariably make a muddle of their undertakings.

The strike is a very ineffective weapon for the redress of grievances, its cost being altogether disproportionate to benefit secured. A report for the year 1910, recently made by the British Board of Trade, shows that only 8 per cent. of strikes were successful; 14 per cent. unsuccessful; 75 per cent. were compromised. Taking all disputes of the year together, only 16.3 per cent. of the workpeople directly involved got what they struck for. The aggregate of working days lost during the year pending settlement of disputes was 9,545,531, involving 515,165 workers.

KENTUCKY has returned to the Democratic ranks in the election of its officers Tuesday, and the majority was ample. There is no cause for alarm in this move, as the party stands pledged for most of the things which are necessary to the advancement of the state, including the establishment of the county unit, which doubtless interests more citizens than any other plank in party platforms. The delivery of these pledges, in the form of laws, will insure the retention of power by the Democrats in the state. But the failure, in any material degree, with all the reigns of power in hand, will cause Democratic retirement at the next election. Kentucky is normally Democratic, but the voters of the commonwealth are independent in such numbers that the majority can be easily changed, and that will again be done on failure to properly handle the people's affairs. Promises made before election are expected by the people to be carried out after election, and the crook in politics is in the same position as the crook in business—he can no longer have permanent position.

Merchants are preparing for people to do their Christmas shopping early this season, and will have goods ready sooner than heretofore. This trade is on in good volume now in the big cities, and is proving satisfactory to both buyer and seller.

Republicans are charging their defeat to the weather, and a number of other things, and declare that the trick cannot be turned again.

Work on the flouring mill at the depot is being crowded right along, and the building will be finished shortly.

This is undoubtedly a Democratic era, and in state and national elections, all over the country, the Democratic star is undoubtedly in the ascendency.

Let Mc fix your clock.

BIG LOT SALE

The Sale of City Lots in the Sparks & Slaton Addition Last Thursday Was a Great Success.

More Than 100 Choice Lots Sold in Record Breaking Time.

Greenville enjoyed its greatest land sale last Thursday, when Messrs. Smith & Hayes put on sale 112 lots in the Sparks & Slaton addition, in the northeast section of town. There were some 20 acres of the land, and a civil engineer had platted the ground to the very best advantage, three avenues being opened north to south, and the land surrounded on all sides by streets already established. A vast amount of grading and cleaning up had been done, and persons in town hardly knew the land when they went to the sale, so attractive did it appear. Mr. G. S. Moore, the auctioneer, was greeted by a very small crowd, but he is an old hand at the business, and was not in the least abashed, but started the sale promptly at 10 o'clock. He is earnest and honest, and soon had the confidence of the crowd. He started with a rush, and the crowd of bidders was with him, eager and liberal, and in three hours the sale was over, the whole of the lots being sold, except the one lot given away, and Mr. James Spurlin secured that. The managers gave away \$20, in batches of \$5, and various parties secured these prizes, but many persons who bid in lots are confident that they secured greater prizes, as the lots sold at an average of about \$53 each, the aggregate being \$579, and the usual size of the lots was 60x150 feet, many people taking two lots adjoining. One purchaser secured 17 lots, while 6 to a dozen was rather frequent, the prices being very tempting. Several purchasers bought only one lot, with the intention of building thereon, some of them at once. With some uniformity on the part of purchasers, this section can be made the prettiest in the whole city, as grades, lines, etc., can be made to the general benefit of all. The promoters, Messrs. Smith & Hayes, inspired everyone with confidence, and proved themselves worthy of the success they made of their venture here. They had no by-bidders, and conducted the sale in every feature just as promised, and along the highest planes.

The Armstrong Farm for Sale.

Back to the Soil.

A century ago Daniel Webster deprecated the shifting of American labor from the farms to the factories. He did not like to see young men "inse themselves in close and unwholesome workshops" and give up "the voice of the lark that cheers them at the plow" for "dust, and smoke, and steam, the perpetual whirl of spools and spindles, and the grating of rasps and saws." The Polish National alliance agrees with Webster. Most of the Polish immigrants were farmers at home, and yet most of them, when they get here, settle in the cities and take up new kinds of work. The alliance wishes to see them settle on the land, where their knowledge of farming could come into play. So it is working out a plan for the purchase of extensive tracts of land and their subdivision into small farms to be sold to immigrants as cheaply as possible.

Every project of this kind should be encouraged. Labor should be diverted from the city to the country. It is needed there so that the output of farm products may be increased and the cost of living kept down. There should be more small farms, because they lend themselves more easily to the intensive cultivation on which we shall have to depend for an adequate supply of food stuffs.

With sufficient capital and good business management the plan of the Polish National alliance will be a success. The alliance can easily find good land and good men to put on it.

STATE ELECTION

Returns Democrats to Power by an Old Time Majority.

Kentucky elected Hon. James B. McCreary as its Governor by about 30,000 majority on Tuesday and the whole Democratic ticket about the same amount. It was a landslide, carrying every Congressional district except the eleventh. The immensity of the victory was a surprise to even the Democrats, who entertained no such vast hopes. The day was fair, and the vote heavy in all sections.

Muhlenberg county remains in the Republican ranks by decreased majorities, George Baker being elected to the legislature by about 175 majority. The most surprising feature of the election here was the development of strength on the part of the Socialists. E. L. Davenport, the Socialist candidate for representative, receiving almost a thousand votes. Heretofore, for some years, there has been a vast amount of Socialist talk, but the votes were never received. Consternation has been caused in the ranks of the two reigning parties by the showing made by the Socialists here this year, as it is generally recognized that the party will grow, and has a chance of winning at the next election of county officers.

HONOR TO OLD ENGINEERS

One Company Names Its Locomotives After Men of Long and Faithful Service.

The Erie Railroad company, in pursuance of its decision to honor engineers of long service with the company by naming locomotives after them, has thus far favored two Western New York employees in this way. The first engineer named for a locomotive was William R. Benedict of Buffalo. The second man was Thomas G. Clark of Itasca, who draws a train on the Allegheny division and has worked for the company for 47 years.

It is customary on some railroads for engineers to use the same locomotives regularly, while on other lines the locomotives are used indiscriminately; on some lines, when a run is made one day by one man and the next day by another, alternating regularly, the locomotive makes both runs and is used by only these two men. Engineers generally prefer to have the same locomotive every time, as they thus become familiar with its peculiarities and are able to get the best work from it. The assertion is made by engineers that locomotives used indiscriminately receive harsher treatment than a machine used by one or two men regularly.

But it is not so much in the interests of economical treatment of locomotives that the Erie is naming some of them for employees, but rather, it is understood, as a tribute to the faithfulness of the men thus honored.

Intelligent Dog.

A few days ago the fireman on the L. & N. train while crossing the trestle between Drakesboro and Elk Valley, saw a bird dog in front of the train on the trestle. It was too far for the dog to get to the end of the trestle before the train overtook it, and there was no way of getting off without leaping to the ground. Most humans would have chanced the ground, but on a trestle there is considerable space between the engine and the ties, so crouching down in the middle of the track the dog waited for the train. The train passed over him and the dog got up and proceeded on his way to the end of the trestle—Queensboro (Ky.) Inquirer.

Champion Chemical Co., Sole Makers, Springfield, Ohio.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and thick clean, clear, healthy thoughts.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

ROYAL

Baking Powder

Absolutely Pure

Where the finest biscuit, cake, hot-breads, crusts or puddings are required **Royal** is indispensable.

Royal is equally valuable in the preparation of plain, substantial, every-day foods, for all occasions.

The only baking powder made from Royal Grape Cream of Tartar

No Alum—No Lime Phosphates

The ladies auxiliary of the Y. M. C. A. solicits orders for Thanksgiving cakes, and will supply any sort of cake that may be desired. Telephone Miss Jessamine Barkley.

See Briz's Saturday specials.

Give your job printing orders to THE RECORD.

The progressive ticket for councilmen ran like greyhounds, and among other things that helped them, according to one observer, was the Socialist device on their ballot. Socialism is undoubtedly attracting many persons in every section.

Trees are beginning to undress at a lively rate; the rain and wind this week almost stripping some of them.

That sale of city lots last Thursday was one of the best things that has happened to Greenville in a long while. The whole 112 lots were sold, and some houses will be built at once, it is said. Purchasers were attracted by the beauty and arrangement of the lots, and as residence sites had become scarce and very high, this plot of ground will encourage the development of the city.

That rain was a great blessing, as the dry weather of the past few months was beginning to be sorely felt in all quarters.

Dr. and Mrs. W. R. Henderson are in Indianapolis on a short visit with relatives.

Mr. James Bates, of McNary, was here with friends yesterday.

There were the usual number of surprises in the election Tuesday, and a thriller extra, in the way the Socialists ran in the county.

Kentucky Democrats pushed up to their old time position, and must feel proud of the majority rolled up.

Socialists are the biggest factors in politics here now, and both the old line parties are doing some deep worrying and guessing.

Good morning! Are you much sorer over the returns?

Mr. Jerrold A. Jonson, of Madisonville, was here a day or two the first of the week on legal business.

Miss Edna Jeffries left last week for Lexington, where she will take a complete business course in Clay's college.

There could not have been a finer day for the election. It was warm, clear and calm, and helped vastly in the piling up of the heavy vote.

The rain Sunday and at night was beautiful, and badly needed, as sick and drinking water was scarce all over the county. This brought about unsanitary and unhealthy conditions, and sickness should be lessened perceptibly now.

The quail season officially opens Wednesday, but the lid has been tilted for some weeks, and many hunters have already been after Bob. There is a large crop of quails, it is reported, and hunting will be heavy this season.

Several of our people are in Hodgenville today, attending the dedication exercises at Lincoln farm, where the magnificent memorial building has been completed. President Taft and many other notable men will be present.

Mr. D. B. Walker, of Louisville, district superintendent of the Kentucky Children's Home Society, spent several days in this county last week, visiting the children who have been placed in homes here. He reports that all the children are doing nicely, and he is well pleased with the locations.

People who came to town Monday did considerable trading, and most merchants were busy. It is noticeable that politics is not so enveloping a man that he can think of nothing else, and there is now practically no hurrah and foolish wild talk over the matter, other things getting deserved attention.

Fresh, smoked and salted meats of all kinds at J. E. Coombs & Co's market. o 20

Dozens of citizens enjoyed the payment of an election bet yesterday morning. Mr. D. J. Duncan and L. W. Irvin entered into an agreement whereby one was to get a wheelbarrow ride at the expense of the other, to be decided by the ballots in the county election. Mr. Duncan lost, and wheeled Mr. Irvin a few hundred yards along the street, attracting a vast throng of spectators, and causing much amusement.

On account of repairs being made at the Presbyterian church, there will be no services at the church Sunday. The Sunday-school will be held at the Y. M. C. A. building at 9:30 o'clock.

There was an increased crowd here at night, Tuesday, to get the returns from the election.

Hand-made Christmas presents are receiving attention.

Methodist Church.

Quarterly meeting next Sunday night at 7 o'clock. Rev. S. J. Thompson, Presiding Elder, will be present to preach. Come out and hear a good sermon.

Anti-Saloon League.

Rev. H. K. Smith, of Hopkinsville, Ky., who represents the Anti-Saloon League of Kentucky, will be in Greenville, Sunday, Nov. 19th, and will speak at the Methodist church at 11 o'clock and at the Baptist church at 7 o'clock. It is said that Dr. Smith is one of the very best temperance speakers the state of Kentucky has produced.

Death of Wm. Y. Newman.

At his home near Pleasant Hill church, at 2:30 o'clock Monday afternoon, Mr. Wm. Y. Newman, in his 82nd year, died after a short illness of pneumonia. He was a native of the county, and one of its best known citizens, his long life being an active one, and he was a worthy leader in his section, prominent in all movements for the betterment of general conditions. He was the father of a large family, and is survived by six sons and two daughters, and his widow also survives. Funeral services were held at the home at 1 o'clock yesterday afternoon, and interment was in the family graveyard, the services being attended by a host of relatives and friends.

More About the Spitters.

In a recent issue of THE RECORD you published an incident regarding spitting tobacco juice on a store floor and the action of the merchant in immediately mopping it up, that should be a hint to those who expectorate tobacco no matter where they are. The spitting of tobacco juice upon our sidewalks has become a great nuisance. There are some men who sit in front of our stores and spit and spit tobacco upon the walk in front of them. They do not seem to be aware that such conduct is indecent; not only indecent, but injurious to public health. In some of our larger towns, as well as cities, there are anti-spitting ordinances. Greenville has no such ordinance, but it should be sufficient to simply call attention to this nuisance to secure its abatement.

A CITIZEN.

Y. M. C. A. NOTES.

The three Bible classes are growing both in numbers and interest. We have a total enrollment of 36 to date. In the contest for attendance the intermediate are leading the standing is as follows. Intermediate 45 points; Juniors, 25 points, and Seniors 20 point. These classes are not for members of the Y. M. C. A. alone, as some have supposed, but are for every man, young man and boy in Greenville and vicinity. There is no distinction at all between members and non members in these classes. Come and join one of them.

Next week the young men's Christian Association unite in a week of prayer all over the world. The local Association will hold prayer services every night from 7 to 7:30 at the building for men and boys. All men and boys are cordially invited to attend these services. On Wednesday night at 7 o'clock at the Methodist church will be held a union prayer service of all the churches to which, of course, men, women and children are invited.

On Friday night at 8 o'clock there will be the first basketball game of the season between two local teams the line up is as follows:
Dunnell, P. Capt. Forward, Kirkpatrick, O. Purgear, C. Forward, Wells, R. Sumner, W. Centre, Shutt, S. Morgan, R. Guard, Smith, H. Capt. Lewis, H. Guard, Purgear, E. Lovell, C. Sub., Taylor, J. G.

The admissions will be as usual: 10 and 25 cents for standing room and 25 and 30 cents for reserved seats to members and non members of the Association. Come out and encourage the boys.

Election comes but once a year. Most people are glad.

WANTED—Good Housekeeping Magazine requires the services of a representative in Greenville to look after subscription renewal and to extend circulation by special methods which have proved unusually successful. Salary and commission. Previous experience desirable, but not essential. Whole time or spare time. Address, with references, J. F. Fairbanks, Good Housekeeping Magazine, 381 Fourth Ave., New York City.

The City Election.

Voters of the city elected six councilmen, to serve for two years beginning the first of January. There were three tickets in the field, but only one of them was complete by offering six men. That was the Citizens' ticket. The Peoples' ticket carried three candidates, and the Progressive ticket lacked one of being complete. Interest in the matter was keen, and the campaign was well sustained for several days preceding the election, and especially so on election day, most of the candidates devoting the day to getting out the voters and endeavoring to secure their support. The Progressive ticket was elected entire, and Judge T. J. Sparks secured the highest number of votes on the Citizens' ticket, thus making the sixth member of the council. The gentlemen selected are as follows and their votes: S. D. Bradley, 188; J. H. Smith 229, W. E. Drake 181, Buren Martin 205, L. E. Rice 207, T. J. Sparks 174. Other candidates and their votes were: Dr. L. P. Moore 138, W. W. Nichols 132, T. C. Brown 137, J. L. Rogers 132, H. E. Eaves 107. The candidates on the Peoples' ticket, Messrs. W. S. Lyon, D. M. Kelley and S. J. Mohon, made no effort to be elected, but all of them received very complimentary support. The gentlemen chosen are all capable, hustling citizens, and our people have every assurance that the affairs of the city will be handled in the most satisfactory manner.

See Big Ben at Macks watch-making shop.

Free Library.

The local Y. M. C. A. has made arrangements with the Kentucky Library Commission to make use of their traveling libraries. One of these libraries is now located in the Y. M. C. A. building containing fifty excellent volumes. These books are for the use of the public, and you are invited to look over the list below and come and make use of these books. Secretary Anderson is custodian and librarian. Books may be drawn any week day from 8:30 a. m. until 9:30 p. m. There are no charges whatever on these books except fines for books defaced and kept over time. Each book may be drawn for two weeks. Below is a list of the books on file now. These are changed for a new set every six months.

Allen, Making the best of our Children; Armin, Elizabeth and her German garden; Bacheller, The Master; Barr, The Strong Man; Barrie, The Little Minister; Bell, Wee Mac Gregor; Blindloss, Dust of Conflict; Brown, Tiverton Tales; Bolwer-Lytton, Last days of Pompeii; Crawford, Don Orsino; Crockett, The Stickler Minister; Daskam, Memoirs of a Baby; Davis, Caplan Macklin; Dickens, David Copperfield; Doyle, Hound of the Baskervilles; Duncan, Cruise of the Shining Light; Farmer, Boston Cooking School Cook Book; Fowler, Concerning Isabel Camaby; Garland, Captain of the Gray Horse Troops; Glasgow, The Wheel of Life; Gordon, Black Rock; Green, Principles of American Forestry; Harland, The Lady Paramount; Harwood, New Creations in Plant Life; Hawthorne, House of Seven Gables; Holmes, One Hundred Days in Europe; Kingsley, The Singular Miss Smith; Kipling, Kim; Lange, Hand book of Nature Study; Locke, Septimus Marryat, Midshipman Easy; Meredith, Lucille; Mitchell, Amos Judd; Norris, The Pit; Red Letter Poems; Rice, Mr. Opp; Roosevelt, American Ideals; Seawell, Franceska; Smith, Caleb West; Spearman, The Close of the Day; Steele, The Hosts of the Lord; Stevenson, Treasure Island; Sweetser, One Way Round the World; Tennyson, Idylls of the King; Thwaites, On the Storied Ohio; Tuckley, In Sunny France; Waltz, Pa Gladden; Weyman, The Long Night; White, Conjuror's House; Williams, Riddell.

If you want that dead watch or clock put to work, let Mc have it and he will put it to running.

The union Thanksgiving service will be held at the Baptist church this year. Rev. O. A. Bailee has been chosen by the pastors to deliver the sermon.

It will soon be possible to have quail on toast.

Thanksgiving is the next national event.

Resolutions of Respect.

Whereas, God in His infinite wisdom, on October 16, 1911, called William Ferrel from the walks of men to the realm of glory on high, therefore be it

Resolved, that while we regret the loss of our brother, how in humble submission to Him who doeth all things well.

Resolved, that in his death this lodge has lost a worthy and devoted member, the wife and children a devoted head, and society in general a valuable member.

Resolved, that a copy of these resolutions be spread upon the records of Camp No. 384, W.O.W. of Powderly, Ky., a copy sent to the bereaved family, and those resolutions be published in the county newspapers.

H. A. Morris,
Thad. Powell,
E. N. Dunn,
Committee.

To the defeated candidates, the weather was rough and gloomy.

For Sale—Good Jersey milk cow and calf. J. E. COOMBS & Co.

Uncle Frank Vaught, one of the oldest and best known colored men in town, died of tuberculosis of the lungs at his home at 11:25 o'clock last Saturday morning. For some months he had been confined to his home, but his death was sudden, he remaining conscious to the end. Funeral services were held at the A. M. E. Zion church at 2 o'clock Monday afternoon conducted by the pastor, Rev. C. N. Payne and interment was in west end cemetery.

Fish Wednesday and Saturday at J. E. Coombs & Co.

While the Democrats are elated over the state victory, they are cast down by losing this county. The leaders had every hope of carrying Muhlenburg by at least 250, and it is likely they would have done so but for the heavy Socialist vote that was cast. It is estimated that at least 75 per cent. of the Socialist vote came from Democratic ranks, and if that be true they were not far wrong. Very few people figured that more than 250 Socialist votes would be polled, as it was hoped to break the ranks of these voters, as has been done formerly, but Socialists voted as they talked this year, and their strength was astounding.

Home rendered lard 12 1/2 c. per pound. J. E. COOMBS & Co.

J. E. COOMBS, Greenville, Ky.

Good Morning
A fragrant scent greets you.
A tempting aroma meets you.
A delicious flavor awaits you
in every cup of

Chase & Sanborn's High Grade Coffee

The Only Way to Buy Coffee Economically Is to Figure the Cost per Cup.

Coffee prices are up and one result is the more careful buying of coffee based on quality and cup cost rather than cost per pound.

Before the recent advance many women who were using a 25 cent coffee were paying more per cup than those women who paid 40 cents per pound, but got more cups per pound and a much better drink besides.

For a long time we have been educating our trade to use better blends of coffee. That's one reason why we have the exclusive agency in Greenville for

Chase & Sanborn's Coffees.

We have many customers who admit that C. & S. Seal Coffee at 40 cents, in one pound tin cans, is more economical and more satisfactory to them than any 25c or 30c coffee they ever used.

They are figuring cost per cup not cost per pound, for in a pound of C. & S. Seal Coffee at 40 cents there is enough rich flavor to make almost twice as many cups of better coffee than you can get out of any 25c. or 30c. coffee.

You can prove this to your own satisfaction with a trial pound.

Your money back if you are not pleased.
We have the entire line of C. & S. Coffees, including the 25c. and 30c., and 3 lbs. for \$1.00 blends—every one a masterpiece for the price.

NEW GOODS JUST ARRIVED.

Last week we unpacked fresh shipments of
New California Raisins.
A full line of California Canned Fruits.
A full line of California Dried Fruits.
New Bulk Rolled Oats.
Fresh Pure Buckwheat Flour.

ROARK—Furniture, Wallpaper, Shades, Moldings.

Undertaker's Goods: Coffins, Caskets, Robes, Wrappers, Slippers, Grave Vaults. Disinfection—ROARK

Clover is rich in protein.

Feed young turkeys bread crumbs

Poultry is quite a large factor with many.

The brooder must be kept free from droppings.

The use of summer silos is growing more common.

Beet molasses contains over 50 degrees of potash per ton.

The sows and pigs should be put on pasture as soon as possible.

The seed well treated will treat the farmer to a disease free crop.

Some horses have learned to balk by being overhauled and abused.

Potatoes will do their best on a well-manured, well-prepared clover sod.

There are over 170,000,000 of acres under wheat cultivation in the world.

Peas, beans and culms were first known in Egypt many centuries ago.

The intelligent care of trees is a great aid in our battle with the insects.

Let the patch of orange-worms be included in the first plan for this summer.

Old grass and clover pastures are much benefited by a dressing of plaster and ash.

One of the "hiding" signs of an ignorant or careless feeder is a bunch of scouring pigs.

Weeds sometimes injure by killing farm stock, or by rendering their product unsalable.

The brood mare in heat should be handled by a firm, steady hand, not an excitable, rash hand.

Better to put up new fences or mend the old than to spend the rest of the summer chasing pigs.

With the high cost of feed, a little damage added to the ration of hogs every day will pay big.

When the cream runs off the green like oil and has a slight acid taste it is usually ripe for churning.

It has been found that denatured sugar forms a valuable and economical addition to skim milk for calves.

Some dairymen are finding it quite convenient to have the milking room hold four cows only at one time.

Stimulate the milk to a vigorous production by means of thorough cultivation and liberal use of fertilizer.

In deep setting, with plenty of feed, the cream is all up in 12 hours in any of the good family creameries now in use.

The age of seed has much to do with the vitality or germinating power. Young, bright, shiny seeds are best.

Hogs have often been staid over a season of shortage and kept in a thrifty, growing condition, for weeks on range's side.

Young geese do not lay as many fertile eggs or produce as many goslings as the first breeding season as they do in the second.

Milk readily absorbs bad odors such as arise from onions, garlic or decaying vegetables, hence don't set the milk pan near them.

Grading of cream is receiving more attention by the dairy press and dairymen than it has in the history of the dairy business.

A good stand of clover cannot be had when sown on fall or spring grain where only a few hundred pounds of cheap fertilizer is drilled to the acre.

The worst feature of cucumber culture is the insect pests, but these may be controlled by dusting with dry insecticides or even with bone dust.

The same laws that have sent the prices of beef and pork products almost out of reach of the workman will also hold the prices of poultry products.

Where one has plenty of land, or land that is too hilly or rocky for regular field cultivation, the pasture affords the cheapest feed that can be grown on the farm.

For market purposes a stock bird, large-breasted, firmly set on short legs, surmounted by large thighs, will prove valuable, especially if belonging to a family of egg producers.

Whether dairying or beef raising should be carried on depends entirely upon the tastes of the land owner or renter and, of course, upon the condition of the buildings, the local market for dairy products, shipping facilities, etc.

Many very good dairymen disagree as to whether it is best to separate the cream while it is warm and fresh from the cow or whether it is best to wait until it is cooled and again brought to the proper temperature before being separated and pasteurized.

"I Suffered Years With My Back."

Backache resulting from weak kidneys, a bad cold or other cause, usually renders the sufferer unfit for work and often results in permanent disability.

"I suffered for years with my back, or kidney trouble, and have tried a number of remedies from different physicians. More than a year ago, one of our local druggists induced me to try

Dr. Miles' Anti-Pain Pills and after using them some three months I found a decided improvement in my kidneys, and I am glad to say that I hope soon to be fully restored to health." J. P. ALLEN, Ex-Judge City Court, Glasgow, Ky.

As long as pain is present in any part of the body rest is impossible and the system becoming weakened is exposed to any form of disease to which the sufferer may be inclined.

Dr. Miles' Anti-Pain Pills by steadying the irritated nerve centers, make refreshing sleep possible, thereby enabling the body to recover lost strength. As a remedy for pain of any description Dr. Miles' Anti-Pain Pills are unsurpassed.

Sold by all druggists under a guarantee assuring the return of the price of the first box if no benefit results. MILES MEDICAL CO., Elkhart, Ind.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of dyspepsia, heartburn, and indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—indigestion. It was this fact that first correctly led Dr. Shoop to the conclusion that his very popular Stomach Remedy—Dr. Shoop's Restorative—going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. With out that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach troubles, indigestion, heartburn, flatulence and biliousness, try Dr. Shoop's Restorative. It will cure you and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative

White Sewing Machines, in rotary and vibrator; needles, shuttles, etc. in stock for all machines. ROARK'S STORE.

Get potted plants and cut flowers from Miss Lena Arnold.

Take your beef hides to J. E. Coombs & Co. and get the cash.
